

# IADC Well Control Conferences call for abstracts

**IADC IS CALLING** for abstracts for two well control conferences, the IADC Well Control Conference of the Americas and IADC International Well Control Conference.

IADC Well Control Conference of the Americas is scheduled for 25-26 October in Albuquerque, New Mexico, and is sponsored by **ChevronTexaco** and **GlobalSantaFe**.

The event will focus on timely technical presentations highlighting recent developments and innovations in a wide variety of areas affecting well control, from management systems and training to improved technology and innovative practices.

Abstracts for each proposed paper must be submitted to IADC no later than 15 May.

If you would also like IADC to consider your abstract for the IADC International Well Control Conference, it can be noted on the abstract submission form. ■

**General subject themes envisioned for the conference include:**

- |   |                                  |
|---|----------------------------------|
| ✓ Management Systems;                                 | ✓ Deepwater and Ultra-Deepwater; |
| ✓ Technology & Equipment;                             | ✓ Surface BOP Operations;        |
| ✓ Remote Monitoring;                                  | ✓ Shallow Gas;                   |
| ✓ Pressure While Drilling;                            | ✓ Case Studies;                  |
| ✓ Training/Human Factors;                             | ✓ Well Design & Construction;    |
| ✓ Underbalanced Operations;                           | ✓ Directional Drilling;          |
| ✓ Well Servicing - Wireline, Coiled Tubing, Snubbing; | ✓ Multi-lateral wells.           |

**Sponsored by:**

**ChevronTexaco**

## IADC Int'l Well Control Conference 7-8 December

IADC is calling for abstracts for the International Well Control Conference scheduled for 7-8 December in Dubai.

In today's high-profile industry, preventing well control events is more important than ever.

The 2004 IADC International Well Control Conference will bring together international well control experts and drilling professionals from across the Middle East to discuss the latest trends, advances and case studies in this important discipline, including new technology, regulation and standards, operational practices and training.

Abstracts are due to IADC by 1 June.

As with the abstracts for Well Control Conference of the Americas, if you would like your abstract to also be considered for that conference as well, it can be noted on the abstract submission form. ■

**The conference will emphasize well control challenges and achievements worldwide, with particular emphasis on the Middle East, and may include such topics as:**

- |   |                                     |
|---|-------------------------------------|
| ✓ Training Initiatives;                     | ✓ Pressure while Drilling;          |
| ✓ Case Studies;                             | ✓ Regulations & Standards;          |
| ✓ Wild Well Control;                        | ✓ Underbalanced Operations;         |
| ✓ Rig Design: Well Control and HSE Aspects; | ✓ Well Servicing;                   |
| ✓ Management Systems;                       | ✓ Wireline, Coiled Tubing, Snubbing |
| ✓ Technology & Equipment                    | ✓ Deepwater Well Control;           |
| ✓ Well Design & Construction;               | ✓ Shallow Gas;                      |
| ✓ Remote Monitoring;                        | ✓ Training & Human Factors.         |
