

2007 IADC conferences

'The right people in the right venue'

IADC ORGANIZES "conferences that count" on the critical issues facing the global drilling industry. These conferences benefit from our reputation among government regulators and the industry at large. As the only industry association representing the global drilling industry, IADC has strong intellectual equity in the industry. IADC works closely with governments and our members to develop regulations, standards, guidelines and policies producing greater efficiency, safety and environmental protection in drilling activities.

IADC is pleased to announce a well-rounded conference schedule for 2007.

Specific conferences and topics include:

HEALTH, SAFETY, ENVIRONMENT & TRAINING

**IADC HSET Conference, 6-7 Feb,
Houston**

**IADC Environmental Conference &
Exhibition, 3-4 April, Amsterdam**

**IADC Drilling HSE Middle East, 17-18
April, Manama, Bahrain**

**IADC Drilling HSE Europe, 9-10 Oct,
Copenhagen**

IADC's worldwide series of HSE conferences examines topics impacting accident prevention, environmental protection and worker health in the drilling industry. The events draw significant participation from relevant government agencies.

DRILLING & COMPLETION TECHNOLOGY

**SPE/IADC Drilling Conference, 20-22
Feb, Amsterdam**

**Drilling Engineering Association
Workshop, 19-20 June, Galveston**

**SPE/IADC Middle East Drilling
Technology Conference & Exhibition,
22-24 Oct, Cairo, Egypt**

IADC technical conferences bring together leading industry thinkers, engineers and executives to study the latest technologies. The Annual IADC/SPE Drilling Conference is the premier technical event in the drilling industry.

MPD, UBO

**IADC/SPE MPD/UBO Conference, 28-29
March, Galveston, Texas**

These two disciplines are areas of increasing interest and put the focus on drilling "undrillable" wells and improving well productivity.

LAND DRILLING

**IADC Drilling Onshore America, 17
May, Houston**

The only event specifically targeting land drilling operations and technology is IADC Drilling Onshore America. Top speakers and panels explore issues affecting the onshore drilling industry, including technology, management and perspectives on future onshore activity.

TAX

**IADC International Tax Seminar, 7-8
June, Marco Island, Florida**

It's the only event of its type for tax professionals in the global drilling and

oilfield service industry. Non-specialists can also benefit with updates on new and emerging tax issues in key drilling markets around the world and on current litigation, transfer pricing, relevant regulation and other special topics. Continuing education units can be earned.

WORLD DRILLING

**IADC World Drilling 2007, 13-14 June,
Paris**

IADC World Drilling focuses on enabling wellsite technology as the key to opening new frontiers of hydrocarbon and to optimizing exploitation of aging reservoirs. The mission is to explore technologies that accomplish both, with emphasis on Western and Middle Europe, the Caspian, Middle East, North and West Africa and deepwater worldwide.

IADC ANNUAL MEETING

31 Oct - 2 Nov, Galveston, Texas

The keynote conference for the drilling industry, the IADC Annual Meeting provides networking opportunities for participants and features prominent speakers from industry and government.

WELL CONTROL

**IADC Well Control Conference of the
Americas & Exhibition, 28-29 Aug,
Galveston**

**IADC International Well Control, 14-15
Nov, Singapore**

Understanding prevention of "blow-outs" is critical, and IADC is the central forum for advancing well-control practice, technology and training.

GULF OF MEXICO

**IADC Drilling Gulf of Mexico, 5-6 Dec,
Galveston, Texas**

The event focuses solely on drilling and completion operations in this vital market. It focuses on timely technical, regulatory and HSE issues related to offshore drilling operations, as well as market outlook.
