

The IADC ART Spark Tank, held 2 August 2017, at IADC HQ in Houston, provided a strong opportunity to provide technology entrepreneurs a new opportunity to pitch their products and ideas (“Sparks”) to a panel of drilling contractors and operators (“Sharks”).

At this event, three “Sparks” were presented. The Sharks and Sparks are identified below, and links to the presentations are included.

Sharks:

Keith Lynch, Conocophillips

Patrick O’Neill, Noble Corporation

John Kozicz, Transocean

Bob Judge, Baker Hughes, a GE Company (moderator)

The following presentations were made:

Presentation	Speaker
<u>Rig Ready Tubular Handling Systems</u>	Kim Christensen, Global Gravity
<u>Floating Supply Base (LMP & DWM at the Rig)</u>	Joe Sherwood, Zentech Inc.
<u>Reducing Drilling Cycle Times with Flat time Analysis</u>	Thad Dunham, Flat Time Reduction
