

IADC DEC Q3 2023 Tech Forum, “How Do We Design and Drill Better Wells – Today and Tomorrow?”

Tuesday, 19 September, 8:30am-12:30pm

- 08.30-08.40** Welcome, facility and safety briefing, and safety moment – Matt Isbell, DEC Chairman, Hess; introduction to event – Andrew Barry and Michael Edwards, DEC Board members
- 08.40-09.05** “Drilling Better Wells – What Are They and How Can We Create, Measure and Reward Them,” John de Wardt, DE WARDT AND COMPANY [View the presentation](#) [View the Video Recording](#)
- 09.05-09.30** “From Uncertainty to Efficiency: The Power of Standardized Data Entry,” Nickolas Brown, Ensign Energy Services [View the presentation](#) [View the Video Recording](#)
- 09.30-09.55** “Digital Workflow Enabled Well Construction,” Andres Nunez, Martin Vidal and Miguel Basso, SLB [View the Video Recording](#)
- 09.55-10.20** “Digitalization Adds Value to Drilling Better Wells,” Khaydar Valiullin, WellsX [View the presentation](#) [View the Video Recording](#)

10.20-10.40 BREAK

- 10.40-11.05** “Take a Look at the Whole Map: Shared Awareness in a Real Time Wellbore Environment,” Kyle Underwood, Helmerich & Payne [View the presentation](#) [View the Video Recording](#)
- 11.05-11.30** “Jettison Jetting: Let’s Rethink Deepwater Well Construction,” Steve Rosenberg, Subsea Drive Corp [View the presentation](#) [View the Video Recording](#) [View the Video Recording](#)
- 11.30-11.55** “Downhole Deployment Valve Technology Advances,” Andrew Carruth, Weatherford [View the presentation](#) [View the Video Recording](#)
- 11.55-12.20** “Integrated Real-Time Engineering Platform with Engineering Planning Streamlines Field Operations,” Nasikul Islam, AI Driller [View the presentation](#) [View the Video Recording](#)

12.20-1:30 Light lunch, sponsored by Hess
