About the IADC Geothermal Drilling Conference & Exhibition

Join the IADC Geothermal Drilling Conference & Exhibition to be at the forefront of the future of energy. This conference will focus on Geothermal Upstream, which includes subsurface, drilling, production, completions, regulatory environment, and associated topics. As a participant, you will gain insights into relevant business and ownership models, contracting and procurement strategies, and supply chains. The conference will showcase groundbreaking technologies with the potential to revolutionise the geothermal industry and the entire energy sector. IADC's expertise in providing definitions and guidelines for the Petroleum Upstream ideally positions it to establish a vocabulary, terms, and standards within the geothermal industry. Geothermal energy regulatory regimes are inconsistent, and immature compared to those of the oil and gas industry, which creates obstacles and extends the lead time for geothermal projects. The conference will analyse differences in regulatory regimes and provide valuable insights for businesses and regulators. Don't miss out on this opportunity to shape a more reliable and clean future for the energy industry. Join the IADC Geothermal Drilling Conference & Exhibition to discuss the exciting developments happening in the upstream aspects of geothermal energy production and the issues to be addressed. Be a part of the transformation that the geothermal industry has the potential to bring to the entire energy sector.

About IADC

Since 1940, the International Association of Drilling Contractors (IADC) has exclusively represented the worldwide oil and gas drilling industry. IADC's mission is to advance drilling and completion technology; improve industry health, safety, environmental and training practices; and champion sensible regulations and legislation which facilitate safe and efficient drilling.

About IADC Conferences

IADC conferences are industry-driven events focusing on the critical issues facing the global drilling industry. Whether it's enabling and cutting-edge drilling technology, well control, health, safety, environment, training, or industry economics and financial outlook, IADC's worldwide program of events brings together the right people in the right venue.

When sponsoring an IADC event you will be enhancing and contributing to your industry!

IADC is extremely appreciative of its sponsors and takes every opportunity to promote these generous companies. When sponsoring this event, you will get high visibility with your target audience.

IADC depends on sponsorships from the industry to help cover the expenses for not only the important conferences we organize, but also all the other IADC initiatives we develop to serve the drilling industry.

The conference sponsor will receive high profile recognition before, during and after the conference.

Companies will be well recognized during the event with sponsor signs, oral recognition from the conference moderators and logo placed on the promotional slides during the breaks.

An average of 1.500 views each day that see your logo on our conference webpage

8.000 to a targeted segment of our database

Announcements on LinkedIn page with over 32.000 members
