

Rig-enabled cementing service

Ni Luh Kadek Martha
Widhihabsari

Product Champion | Cementing
equipment

Challenges

Differentiation to well construction

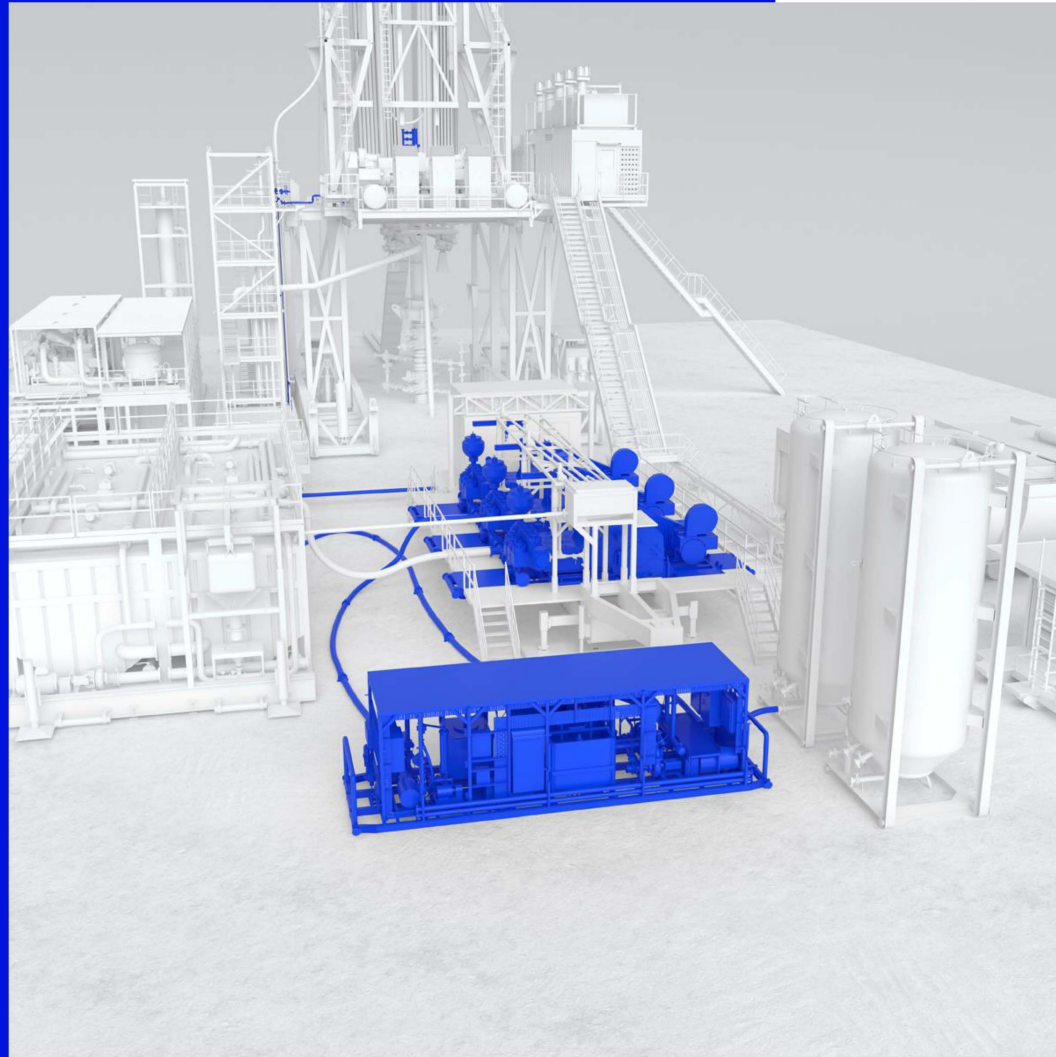

Exposure to high-pressure pump reliability and low-pressure mixing equipment performance

Safety risks | pressure, lifting, manual handling, driving

CO₂ footprint

The Solution

An efficient, safe and sustainable cementing model based on

A dedicated low-pressure electric mixing skid

Integration with the rig pumps and power plant

The capability to acquire all job execution data

Do you want
your rig to be
cementing-
enabled?
