

Technical Publications Committee

2026 Annual Meeting

**October 8-9, 2026
San Luis Resort
Galveston, TX**

Why are we here?

Sicut enim a perfecta scientia procul sumas, levioris culpae arbitramur saltem parum, quam omnino nihil dicre.

Jerome (342-420)

“Remote as we are from perfect knowledge, we deem it less blameworthy to say too little rather than nothing at all.”

Welcome – Nace Peard, Vice Chair

- Housekeeping: silence phones, bathroom locations & emergency procedures (San Luis)
- Purpose of Meeting: To share progress about books we are writing on well construction technology and to discuss plans for Calendar Year 2027
- Safety Topic:
<https://www.youtube.com/shorts/WXJLZ2qh8PA?t=34&feature=share>

Agenda (Thursday, Oct 8 – Day 1)

- 8:30 am - Welcome, Safety Moment, IADC Antitrust Guidelines
- 8:45 am - Leadership, Expected Attendees, Introductions
- 9:00 am - Mission Statement and Discussion
- 9:30 am - Summary of Q3 2026 , 7/9/26 --> **Mary Dimataris**
- 10:00 am - ****Break****
- 10:45 am – Business Session – **Bill Krull and Fran Kennedy-Ellis**
- 12:00 noon - **LUNCH**
- 1:30 pm - **Rigs & Downhole Equipment --> John Gammage**
- 3:15 pm - ****Break****
- 3:35 pm - **Environmental Management --> John Candler**
- 4:30 pm – Adjourn to John Candler's home

Agenda (Friday, Oct 9 – Day 2)

- 8:30 am - Welcome, further discussion on topics from Day 1
- 8:45 am - Discussion on use of non-generative AI in TPC books
- 10:00 am - ****Break****
- 10:20 am - **Planning, Practices & Guidelines --> Arash Haghshenas**
- 11:30 am - **LUNCH**
- 1:30 pm - **Fluids --> Arthur Hale**
- 2:30 pm - ****Break****
- 2:50 pm - Other business
- 3:15 pm - Members speak
- 4:00 pm - Adjourn

General Antitrust Guidelines for IADC Members

As an IADC member serving on an Association Committee, Chapter, Subcommittee, Task Force, etc., you should acquaint yourself with these guidelines. It is appropriate for IADC and its members to engage in a variety of beneficial activities, including development of proposed standards and collection of industry statistical data. It is prudent for members to exercise caution, however, and refrain from discussion of or joint action in connection with the following topics:

1. Current or future prices, price adjustments or discounts.
2. Profit levels sought or attained.
3. Dividing or allocating customers, markets, or territories.
4. Any refusal to deal with or boycott a customer, potential customer, supplier or potential supplier.
5. Activities that would lessen the ability of others to compete or potentially compete with IADC members.
6. Restrictions or limits on the availability of services.
7. Any limits on sales of services or use of equipment.

Any action recommended by IADC to its members is to be voluntary, not mandatory.

Each Producer, Drilling Contractor or Associate Member must make its own individual marketplace decision whether to follow any IADC recommendation.

Published Books (author interviews in green)

Casing and Liners for Drilling and Completion – Ted Byron

Managed Pressure Drilling – Bill Rehm, et al.

Underbalanced Drilling – Bill Rehm, et al.

Well Cementing Operations – Ron Sweatman

Driller's Knowledge Book – Leon Robinson & Juan Garcia

Coiled Tubing Operations – Les Skinner

Hydraulic Rig Technology and Operations – Les Skinner

✓ ***Practical Wellbore Hydraulics and Hole Cleaning*** – Mark Ramsey

✓ ***A Practical Handbook for Drilling Fluids Processing*** – S. Bridges & L. Robinson

✓ ***Well Integrity for Workovers & Recompletions*** – Les Skinner

✓ ***Fundamentals of Horizontal Wellbore Cleanout*** – Subhash Shah et al

✓ ***Well Integrity for Abandoned Well Re-entries*** – Les Skinner

TPC Leadership (as of Jan 1, 2026)

Group Leaders:

Environmental – John Candler

Fluids – Arthur Hale

Planning, Practices & Guidelines – Arash Haghshenas

Rigs & Downhole Equipment – John Gammage

Support Staff:

Chair – Les Skinner

Vice Chair – Nace Peard

Secretary – Mary Dimataris

IADC Representative – Bill Krull

Introductions

Please provide your name, your location, your area of expertise, and a brief summary of your experience.

Mission Statement

Create a comprehensive, practical, and readily understandable series of peer-reviewed publications on well construction and integrity in the energy industry to educate and guide personnel at all levels.

revised and adopted Oct 15, 2021

(Changes to the Mission Statement can only be made at the Annual Meeting)

Mission Statement Discussion

Discussion:

1. Does this mission statement adequately state our current purpose?
2. If so, should we confirm it, as is, by vote?
3. If not, should it be modified? How? When?
4. Previous suggestions:
 - Add “underground storage” to “...well construction and integrity...”
 - Add other descriptors such as petroleum, geology, and reservoir engineering to “...energy industry...”

Mission Statement (proposed)

*Create a comprehensive, practical, and readily understandable series of peer-reviewed publications on well construction and integrity **and underground storage** in the **petroleum, geology, reservoir engineering, and** energy industry to educate and guide personnel at all levels.*

IADC TPC Annual Meeting
Thursday, July 9, 2023

TPC Business

IADC – Bill Krull

Book sales, IADC policies update, upcoming events involving TPC

Elsevier – Fran Kennedy-Ellis

Book sales, Elsevier corporate policies update, Anthropic lawsuit, AI “training” using TPC books

LUNCH

Rigs & Downhole Equipment--> Book Status

Current Books

Rig Design, Construction & Commissioning – Bill Dixon

Geothermal Well Construction – Hani Ibrahim

Drill Bits for the Energy Industry – Paul Pastusek, Hani Ibrahim

Complex Trajectory Drilling – Jonathan Lightfoot & Mitch Abahusayn

Other potential books

Drilling Optimal Directional Wells w/ Safe Separation - Jonathan Lightfoot

Drill String and BHA Design – Paul Pastusek

Untold Oilfield Tales – John Gammage & Les Skinner

BREAK!

Environmental Management--> Book Status

Current Books

Sustainable Offshore Drilling Environmental Management – John Candler

Other potential books

Onshore Drilling Waste Management – Tony Staples, et al

Environmental Aspects of Drilling Geothermal Wells (author?)

Drilling for Hydrogen (author?)

ADJOURN

– to John Candler's house
5005 Woodrow Avenue
for dinner & whatever

Day 2, October 9, 2026 – Nace Peard, Vice Chair

- Housekeeping: silence phones
- Questions, answers, comments about progress so far?

Agenda (Thursday, Oct 9 – Day 2)

- 8:30 am - Welcome, further discussion on topics from Day 1
- 8:45 am - Discussion on use of non-generative AI in TPC books
- 10:00 am - ****Break****
- 10:20 am - **Planning, Practices & Guidelines --> Arash Haghshenas**
- 11:30 am - **LUNCH**
- 1:30 pm - **Fluids --> Arthur Hale**
- 2:30 pm - ****Break****
- 2:50 pm - Other business
- 3:15 pm - Members speak
- 4:00 pm - Adjourn

Non-generative AI (Artificial Intelligence)

- What is it?
- Can it be copyrighted?
- Why should/should not it be used in TPC books?
- If it is used, is the author still responsible for content?
- Do publishers other than Elsevier allow its use?
- Does IADC allow its use in other publications?

BREAK!

Planning, Practices & Guidelines --> Book Status

Current Books

- ***Well Control Operations*** – Arash needs co-author
- ***Managed Pressure Drilling, 2nd ed.*** – suspended

Other potential books

Carbon Capture and Underground Storage (Author?)

Nominations for Group Lead *(to replace Arash at his request)*

LUNCH

Fluids--> Book Status

Current Books

- *Non-Aqueous Drilling Fluids Handbook* – Fred Growcock et al
- *Composition & Properties of Well Construction (or Drilling and Completion) Fluids, 8th ed* – Mary Dimataris, editor-coordinator

Other potential books

- *Practical Chemistry for Oil & Gas Well Construction* – Mark Luyster
- *An Engineering Approach to Lost Circulation* – Paul Scott et al
- *Principles of Drilling Fluid Control* – Paul Scott
- *Lost Circulation* – Author(s)?

Udder Bidness

Location for 2027 IADC TPC Annual Meeting – Bill Krull

- San Luis Resort, Galveston
- Some other venue in Galveston
- Venue at Lake Conroe
- Other options

2027 IADC TPC Meetings

- Q1 Meeting – January 21, 2027
- Q2 Meeting – April 22, 2027
- Q3 Meeting – July 22, 2027
- Annual Meeting – October 7-8, 2027

MEMBERS SPEAK

ADJOURN

*“Go therefore
and write!”*
